

Instantblend[™] Creamer

Instantblend Non-Dairy Creamer

One of the biggest complaints about non-dairy creamers is their oily aftertaste—this one has none! Its clean taste not only enhances your coffee but also allows you to substitute it for Half & Half in recipes. Perhaps its most remarkable quality is its refusal to burn when heated, a big improvement over its dairy lookalikes. Available in quarts or our most popular individual portions that make coffee a gorgeous golden color that says “latté” in the best way.

The Best Benefits

- Replacement for milk that won't burn
- Clean taste—no aftertaste
- Longer non-dairy shelf life
- Economical price point
